AI-POWERED LANGUAGE LEARNING FOR INDIGENOUS ASEAN LANGUAGES

Tutur.

THE PROBLEM

1,200+

LANGUAGES

Spoken Across ASEAN

170+

AT RISK

Languages Facing Extinction (UNESCO)

93%

FEWER RESOURCES

Spoken Across ASEAN

The digital age is accelerating language death, not preventing it.

OUR SOLUTION

AI-POWERED & GAMIFIED

Interactive learning platform built specifically for underrepresented ASEAN languages

TARGET LANGUAGES

Minangkabau, Batak Toba, Iban, Sarawak Malay

ALIGNED WITH SDGS

SDG 4 — Quality Education | SDG 10 Reduced Inequalities | SDG 11 Sustainable Cities and Communities

LIVE

DEMO

KEY FEATURES

NLP ENGINE

Custom models for 5 low-resource ASEAN languages

CULTURAL MODULES

Folktales, folk songs, oral literature as learning content

MULTIMODAL LEARNING

Text Q&A, audio listening, comprehension exercises

LOCALIZED PRICING

Payment integration 60–80% cheaper vs global apps

PWA TECHNOLOGY

No app store needed, works on any device

CULTURAL AUTHENTICITY

Community-reviewed content preserving linguistic integrity

IMPACT & FUTURE

TODAY

Functional prototype with NLP + cultural content

FUTURE

- Native speaker community hub
- Offline / low-bandwidth mode for rural communities
- Language certification system
- Expansion to Kadazan-Dusun & Orang Ulu dialects
- AI voice synthesis with regional accents

What's Next for Tutur ?

PRESERVING VOICES, ONE LANGUAGE AT A TIME

"When a language dies, humanity loses a perspective that can never be recovered."
